INTRODUCTION

I, Vicki Fanning McLean a plaintiff and the Pro Se filer for the plaintiffs of the Estate of James McLean and the Estate of Louis Anthony Fanning, Sr all being native U.S. Citizens and Texas, or Louisiana residents am filing this case for the United States Citizens against Puerto Rico, a territory of the United States, ET AL EX REL USA under the Patriot Act, Espionage Act of 1917, Sedition Act of 1918 Alien Registration Act of 1940, Immigration and Naturalization Act of 1924 and 1952, McCarren-Walters Act of 1952, International Traffic In Arms Regulation Act of 1976, Racketeer Influence and Corrupt Organizations Act of 1970, Trading with the Enemy Act of 1917 & 1939, Bank Secrecy Act of 1970. Civil Rights Act of 1964, Social Security Act of 1935, 1965, Employment Retirement Income Security Act of 1974, and Illegal Immigration Reform and Immigrant Responsibility Act of 1996. The plaintiffs in this case have previously filed a series of federal cases placed with the Foreign Intelligence Surveillance Court (known here after as FISC) under Intelligence Judge Martin Feldman in the U.S. District Court of Eastern Louisiana beginning on Sept. 28, 2016 Case 16-15001. The series of cases filed under the Foreign Intelligence Surveillance Court were filed primary under the Patriot Act of 2001, Alien Registration Act. Of 1940, McCarran-Walters Act of 1952, Bank

Secrecy Act of 1970, Espionage, Act of 1917, RICO ACT of 1970, and the International Traffic in Arms Regulation Act of 1976 and Immigration and Naturalization Act of 1924 and 1952. Many of the issues addressed in this case were addressed by the plaintiffs against different defendants in FISC cases filed under the Patriot Act and Espionage Act in U.S. District Court of Eastern Louisiana in New Orleans 17-5578, 17-12760, 18-911, 18-3462, 18-3701 and U.S. District Court of Western Texas A18-1021 and A19 -0591 both filed originally under Federal Judge Robert Pitman.

Due to these FISC cases being active with active investigations specifically addressing the yearly massive theft of U.S. funds by the Federal Reserve Shareholders back till 1913 there exists a much greater threat from immigrants, legal and illegal living inside the United State most using stolen U.S. Citizens' social security numbers , to rise up and revolt against the U.S. Citizens in the border States and Coastal States while enabling the mass movement of foreign troops from the Mexican border falsely claiming asylum and refugee status, from overseas from China by way of cruise ships, and from Russia and India by way of illegal international underground subways to overtake the United States and the United States Citizens for the Federal Reserve Shareholders planned massive United States genocide.

The filing of this case for the U.S. Citizens as described against Puerto Rico a territory of the United States, ET AL EX REL USA under the Patriot Act, etc. should enable this case to be immediately moved to the FISC under Judge Martin Feldman and Magistrate Daniel Knowles with immediate transfer to Chief Supreme Court Justice John Roberts to be in accordance with the U.S. Constitution Article 3, Sections 1-3 supported by the Federalist Papers Article 81.

Quote from the Federalist Papers Article 81

“Let us now examine in what manner the judicial authority is to be distributed between the supreme and the inferior courts of the Union. The Supreme Court is to be invested with original jurisdiction, only ``in cases affecting ambassadors, other public ministers, and consuls, and those in which a state shall be a party." Public ministers of every class are the immediate representatives of their sovereigns. All questions in which they are concerned are so directly connected with the sovereignties they represent; it is both expedient and proper that such questions should be submitted in the first instance to the highest judicatory of the nation. the public peace, that, as well for the preservation of this, as out of respect to Though consuls have not in strictness a diplomatic character, yet as they are the public agents of the nations to which they belong, the same observation is in a great measure applicable to them. In cases in which a State might happen to be a party, it would ill suit its dignity to be turned over to an inferior tribunal.”

Due to the attack on Supreme Court Justice Brett Kavanaugh in 2018 led by U.S. Democratic Senator Diane Feinstein and the attack on Vicki McLean’s first federal Judge Thomas Porteous in 2008 led by the Democratic controlled U.S. House of Representatives under Speaker Nancy Pelosi for the benefit of the Federal Reserve Shareholders there is a greater urgency to notify all Federal Judges to protect and aid them to rise up against the forging of their orders encouraging them also to transfer all forged cases to FICS especially the ones filed for immigrants not allowed under the Alien Registration Act of 1940 and Espionage Act and Sedition Act of 1917. Vicki McLean forcing a citation hearing purposely positioned with Magistrate Daniel Knowles was how she enabled the FISC to prove that all Vicki McLean’s federal judges’ orders being as many as 22 had been forged with the forging of the assistant U.S. Attorneys’ motions on 6 Federal False Claim Espionage cases filed

for the U.S. Citizens. Once enough evidence was acquired by FISC, all the cases filed by Vicki McLean were able to be picked up for the U.S. Citizens.

This case is being filed to address the subversive and espionage activities of Republican of China, ET AL allowing massive numbers of citizens from China who acquired stolen U.S. Citizens social security numbers and having stolen federal, state, and local benefits with many having acquired fraudulent U.S. Citizenship using a stolen U.S. Citizens social security in violation of the U.S. Constitution, U.S. Immigration and Naturalization Acts of 1924 and 1952, Alien Registration Act of 1940, Espionage Act of 1917, Sedition Act of 1918, Bank Secrecy Act of 1970 and Patriot Act of 2001 to invade the United States to aid the U.S. Federal Reserve Shareholders to control and overtake the legitimate U.S. Government and U.S. Citizens established under the U.S. Constitution attacking them both financially and physically daily inside the United States on U.S. domestic soil.

Exhibit 1 – FISC Case U.S. District Court of Eastern District of Louisiana Case 18-3462

The International Bankers being referred to as the Federal Reserve Shareholders here after controlled all nations and industries as early as the 1850's. The Federal Reserve Shareholders specifically treated the Chinese immigrants in the United States different than all other American immigrants until 1943 restricting their Chinese Citizens from becoming U.S. Citizens.

“Chinese Immigration and the Chinese Exclusion Acts” from the U.S. Secretary of State Office of the Historian website

“In the 1850s, Chinese workers migrated to the United States, first to work in the gold mines, but also to take agricultural jobs, and factory work, especially in the garment industry. Chinese immigrants were particularly instrumental in building

railroads in the American west, and as Chinese laborers grew successful in the United States, a number of them became entrepreneurs in their own right. As the numbers of Chinese laborers increased, so did the strength of anti-Chinese sentiment among other workers in the American economy. This finally resulted in legislation that aimed to limit future immigration of Chinese workers to the United States, and threatened to sour diplomatic relations between the United States and China.

In 1880, the Hayes Administration appointed U.S. diplomat James B. Angell to negotiate a new treaty with China. The resulting Angell Treaty permitted the United States to restrict, but not completely prohibit, Chinese immigration. In 1882, Congress passed the **Chinese Exclusion Act**, which, per the terms of the Angell Treaty, suspended the immigration of Chinese laborers (skilled or unskilled) for a period of 10 years. The Act also required every Chinese person traveling in or out of the country to carry a certificate identifying his or her status as a laborer, scholar, diplomat, or merchant. The 1882 Act was the first in American history to place broad restrictions on immigration

The Chinese Government considered this act a direct insult, but was unable to prevent its passage. In 1892, Congress voted to renew exclusion for ten years in the Geary Act, and in 1902, the prohibition was expanded to cover Hawaii and the Philippines, all over strong objections from the Chinese Government and people. Congress later extended the Exclusion Act indefinitely. The Chinese Exclusion Acts were not repealed until 1943, and then only in the interests of aiding the morale of a wartime ally during World War II. With relations already complicated by the Opium Wars and the Treaties of Wangxia and Tianjian, the increasingly harsh restrictions on Chinese immigration, combined with the rising discrimination against Chinese living in the United States in the 1870s-early 1900s, placed additional strain on the diplomatic relationship between the United States and China.”

The U.S. Universities especially the Ivy League Universities had an abundance of Chinese professors who excelled in science, chemistry, physics, engineering, nuclear engineering, computer science, etc. with many having been given the Nobel Peace Prize. Surely most of the Chinese Professors were involved in all the Federal Reserve Shareholders secret underground research projects for the HAARP mind control and weather modification systems and the secret underground development projects. Through the Chinese Exclusion Acts the Federal Reserve Shareholders specifically restricted Chinese Citizens from applying for U.S. Citizenship to contain all the Chinese professors, professionals, and entrepreneurs living inside the United States.

Unlike most immigrants, the Chinese professional immigrants were often allowed to return to their homeland. Once the Social Security Act of 1935 was passed it should be assumed that all Chinese immigrants living inside the United States including the Chinese U.S. Professors were provided stolen U.S. Citizens social security numbers like all other immigrants living inside the United States to fund the Federal Reserve Shareholders espionage activities in other parts of the world.

The Chinese Citizens living inside the United States using stolen U.S. Citizens social security numbers have over the last 30 years been positioned in government positions and U.S. Companies that greatly influence U.S. Politics. U.S. technology, and U.S. Social Media while massive numbers of Chinese Citizens were working in the U.S. illegal mind control systems able to easily steal U.S. technology for Chinese companies inside China. Many of the Chinese Citizens listed as defendants reveal the Federal Reserve Shareholders strategic positioning of Chinese Citizen

professionals inside the United States for their benefit and to steal massive amounts of U.S. assets linked to their employment or companies due to possession of a stolen U.S. Citizen social security number.

ARGUMENT

The Nationality Law of the People's Republic of China regulates citizenship in the People's Republic of China (PRC).

Exhibit 3 – “Nationality Law of the People's Republic of China”
[https://maoist.wikia.org/wiki/Nationality Law of the People%27s Republic of China](https://maoist.wikia.org/wiki/Nationality_Law_of_the_People%27s_Republic_of_China)

“The **Nationality Law of the People's Republic of China** (Template:Zh-stp) regulates citizenship in the People's Republic of China (PRC). Such citizenship is obtained by birth when at least one parent is of Chinese nationality or by naturalization.

The law was adopted at the Third Session of the Fifth National People's Congress and promulgated by Order No. 8 of the Chairman of the Standing Committee of the National People's Congress and effective as of September 10, 1980[1].

As for Hong Kong residents, the law was adopted at the Nineteenth Session of the Standing Committee of the Eighth National People's Congress on May 15, 1996[2], a year prior to the Hong Kong handover and came into effect on the same day on July 1, 1997. The explanations concerning the implementation of the nationality of Hong Kong citizens is that Hong Kong citizens are Chinese nationals. The British Dependent Territories citizen, British Nationals (Overseas) and British Citizen passports are not recognized by the Chinese government. Hong Kong citizens who

hold such passport or have a right of abode in countries outside the PRC are not entitled to British (or any other nation's) consular protection inside the People's Republic of China (including Hong Kong, Macau and the mainland)

Article 1: This law is applicable to the acquisition, loss and restoration of nationality of the People's Republic of China.

Article 2: The People's Republic of China is a unitary multinational state; persons belonging to any of the nationalities in China shall have Chinese nationality.

Article 3: The People's Republic of China does not recognize dual nationality for any Chinese national.

Article 4: Any person born in China whose parents are both Chinese nationals or one of whose parents is a Chinese national shall have Chinese nationality.

Article 5: Any person born abroad whose parents are both Chinese nationals or one of whose parents is a Chinese national shall have Chinese nationality. But a person whose parents are both Chinese nationals and have both settled abroad, or one of whose parents is a Chinese national and has settled abroad, and who has acquired foreign nationality at birth shall not have Chinese nationality.”

“Visa requirements for Chinese citizens” from Wikipedia

Visa requirements for Chinese citizens are administrative entry restrictions imposed on citizens of China by the authorities of other states.

As of 26 March 2019, Chinese citizens had visa-free or visa on arrival access to 74 countries and territories, ranking the Chinese passport 64th in terms of travel freedom according to the Henley Passport Index.

Exhibit 4 - China (People’s Republic of)’s Constitution of 1982 with Amendments through 2004

“CHAPTER II: THE FUNDAMENTAL RIGHTS AND DUTIES OF CITIZENS

Article 50

The People's Republic of China protects the legitimate rights and interests of Chinese nationals residing abroad and protects the lawful rights and interests of returned overseas Chinese and of the family members of Chinese nationals residing abroad.

Article 51

The exercise by citizens of the People's Republic of China of their freedoms and rights may not infringe upon the interests of the state, of society and of the collective, or upon the lawful freedoms and rights of other citizens.

Article 52

It is the duty of citizens of the People's Republic of China to safeguard the unity of the country and the unity of all its nationalities.

Article 53• Duty to obey the constitution

Citizens of the People's Republic of China must abide by the Constitution and the law, keep state secrets, protect public property and observe labor discipline and public order and respect social ethics.

Article 54

It is the duty of citizens of the People's Republic of China to safeguard the security, honor and interests of the motherland; they must not commit acts detrimental to the security, honor and interests of the motherland.

Article 55• Duty to serve in the military

It is the sacred obligation of every citizen of the People's Republic of China to defend the motherland and resist aggression. It is the honorable duty of citizens of the People's Republic of China to perform military service and join the militia in accordance with the law.

Article 56• Duty to pay taxes

It is the duty of citizens of the People's Republic of China to pay taxes in accordance with the law.

Clearly Chinese Citizens living inside the United States whose children are born inside the United States are Chinese Citizens entitled to the rights of a Chinese Citizen and protection by the Chinese Government. The Chinese Government does not allow dual citizenship. A Chinese Citizen is required to pay taxes to the Chinese Government on foreign income earned abroad. The Chinese government through their constitution Chapter II Article 50 clearly protects the intellectual property rights of their Chinese Citizens while living inside the United States that gives the Chinese Government confidence with the backing of the Federal Reserve Shareholders to boldly steal the intellectual property of U.S. Companies and U.S. Universities illegally developed and acquired by Chinese Citizens inside the United States using stolen U.S. Citizens social security numbers.

“CHAPTER II: THE FUNDAMENTAL RIGHTS AND DUTIES OF CITIZENS

Article 50

The People's Republic of China protects the legitimate rights and interests of Chinese nationals residing abroad and protects the lawful rights and interests of returned overseas Chinese and of the family members of Chinese nationals residing abroad.”

To further protect Chinese Citizens’ interests when living abroad the Chinese requires a Chinese Citizen inside the United States to officially renounce their Nationality Law of the People’s Republic of China clearly stated in Nationality Law of the People’s Republic of China Articles10-12

Article 9: Any Chinese national who has settled abroad and who has been naturalized as a foreign national or has acquired foreign nationality of his own free will shall automatically lose Chinese nationality.

Article 10: Chinese nationals who meet one of the following conditions may renounce Chinese nationality upon approval of their applications:

1. they are near relatives of foreign nationals;
2. they have settled abroad; or
3. they have other legitimate reasons.

Article 11: Any person who applies for renunciation of Chinese nationality shall lose Chinese nationality upon approval of his application.

Article 12: State functionaries and military personnel on active service shall not renounce Chinese nationality.

“List of Chinese Americans” from Wikipedia

The list of Chinese American Professors and Chinese American Entrepreneurs many co-founders of U.S. technology companies is so alarming with most having been involved in the illegal underground mind control operations it is important to included the entire list of Chinese Americans from Wikipedia so all can be properly vetted for U.S. Citizenship and properly vetted for possessing a stolen U.S. Citizen’s Social Security number to assess the money laundering by the

Federal Reserve Shareholders by way of Chinese Americans using stolen U.S. Citizens social security numbers.

CONCLUSION

There is little doubt that Chinese immigrants and unaccompanied Chinese immigrant minors are no different than any other immigrants that migrate to the United States after 1943. Prior to 1943 the Chinese Citizens were restricted from applying for U.S. Citizenship. The China government has jurisdiction over their citizens and under the China Constitution the China Government is required to provide free education to all. The Chinese Government is required to provide health care and housing for their indigenous citizens. Chinese Citizens were required to acquire permission from the United States prior to entering the United States. Asylum filings illegally inside a U.S. Court is entering without permission. Chinese Citizens with their children and their children born inside the United States residing in the United States were required to acquire permission to enter, to register with the INS, to acquire an alien registration number, and apply for U.S. Citizenship according to the Immigration

and Naturalization Act of 1924 and 1952. Chinese children born in China and born inside the United States to Chinese immigrants were required to also acquire an Alien Registration number and apply for U.S. Citizenship after age 18 in accordance to the Immigration and Naturalization Act of 1924 and 1952. The possession of a stolen social security number and having stolen federal, state, or local benefits would automatically disqualify a Chinese Citizen's application for U.S. Citizenship due to fraud and require fingerprinting and deportation.

U.S. Immigration Forms and U.S. Immigration Judges hired by the U.S. Department of Justice not asking the right questions of individuals and their attorneys applying for U.S. VISAS, U.S. Residency, U.S. Green Cards, and U.S. Citizenship clearly plays a dominant role in aiding the movement of immigrants into the United States, legal and illegal for espionage activities to illegally acquire social security numbers, to acquire illegally U.S. employment, state licenses, bank accounts, to steal U.S. and State benefits, steal U.S. Scholarships and grants, illegally register in free U.S. public schools, etc. All U.S. citizenship applications, U.S. residency applications, U.S. green card applications, U.S. visas applications, immigration attorneys, U.S. Immigration Judges, and all State and Federal Judges should ask these basic questions to identify immigrants with their immigrant parents and immigrant relatives who have violated the U.S. Immigration and Naturalization Act of 1924 and 1952, the Alien Registration Act, the Espionage Act, and other U.S. Laws that deny the individual any right to acquire a U.S. visas, a U.S. temporary or permanent residency, a U.S. green cards, and U.S. Citizenship due to violations of U.S. Laws and violations of the Alien Registration Act requiring the immigrant to be denied entry or if already inside the United States to be detained in a U.S. detention camp or federal prison, fingerprinted, and deported from the United States. These same questions should be asked of their immigration attorneys to remove the thousands of

U.S. attorneys inside the United States that are fraudulent U.S. Citizens using stolen social security numbers.

1. Are you a child of immigrant parents who were born in a foreign country? Were you brought to the United States by your immigrant parents? Were you born inside America to parents born in a foreign country? What are the birthdates and birthplaces of your immigrant parents and their native birthright citizenship country or countries at time of birth? What is your birthdate, and your place of birth? Did your parents at time of your birth steal federal and state benefits for medical services?
2. Have you at any time used a U.S. social security number under your name or an alias? What year did you acquire your U.S. social security number? How did you acquire your social security number?
3. Have your parents, relatives, sponsors or foster parents as immigrants used a social security number under their names or an alias?
4. Did you have a sponsor that helped you enter the United States? What are their names?
5. If you are an unaccompanied immigrant minor who were your sponsors and foster parents inside the United States.
6. Did you acquire an U.S. Alien Registration number? What year did you acquire your U.S. Alien Registration Number? Did your children acquire an U.S. Alien Registration Number? What year did your children acquire their U.S. Alien Registration Number and at what age? Did your relatives living inside the United States acquire the required Alien Registration Number and in what year?
7. Have you or your children ever been registered in U.S. and State free public schools? What years were you or your children registered in U.S.

- and State free public schools? In what States and what school districts were you or your children registered in U.S. and State free public schools.
8. Have you or your children ever received U.S. college financial aid or U.S. college scholarships or grants?
 9. Have you or your children every receive Medicaid, Medicare, or Welfare services inside the United States. In what years and what States.
 10. Have you ever possessed a firearm on U.S. soil?
 11. Have you ever participated in political events inside the United States?
 12. Have you ever held a federal, state, or local governmental position or job?
 13. Have you ever voted in federal, state, or local elections?
 14. Have you ever received U.S. or State benefits? What type of benefits and in what years?
 15. Have you notified your native country of your presence inside the United States? Do you continue to keep your native country informed of your place of residency abroad? What is your identification number used in your native country? Do you possess a driver license or any other license in your native country and what are your license numbers?
 16. Have you reported your foreign United States earned income to your native country yearly since living inside the United States?
 17. Have you reported to your foreign country the U.S. Federal, State, and local benefits (equated in dollar value) received while living inside the United States?
 18. Have you used a U.S. social security number to acquire a bank account, loan, credit card, state driver license, or state auto license plate, other licenses, passport, visa, etc.?

The above questions should also be asked of all immigrants and all immigrants' children even immigrant children born inside the United States by the U.S. Customs and Border Patrol Agents, ICE, all U.S. Attorney Offices, U.S. Federal Judges, all U.S. Attorney General Offices, all State Attorney General Offices, all County District Attorney Offices, all City Attorney Offices, State Secretary of State Elections Divisions, State Drivers Divisions, all attorneys representing immigrants, etc. to be able to properly vet a United States Citizen for legitimate U.S. Citizenship, and vet a social security number to verify the social security is a valid social security under the individual's name not belonging to a United States Citizen. Illegal encryption technology in all computer systems and computer programs does not allow for the proper vetting of a social security numbers for theft or for the properly vetting for legitimate U.S. Citizenship. The inclusion of these questions for applications for U.S. visas, U.S. residency, U.S. green cards, and U.S. Citizenship with extensive investigations proving the immigrant answers are true and accurate would aid to validate that U.S. Immigration and Naturalization Laws of 1924 and 1952, and other U.S. laws have not been violated when obtaining United States visas, residency, green cards and citizenship. These questions also aid to verify the immigrant has not violated their native country laws, so the United States is not aiding the immigrant to violate international laws and international agreements.

The People's of Republic of China have huge liability to the U.S. Citizens and U.S. Government due to the following reasons:

1. The People's of Republic of China intentionally not establishing the necessary internal and external control over their citizens to aid their citizens to enter the U.S., to access U.S., State, and Local benefits, and access U.S. jobs are liable for their citizens' theft of U.S., State, and Local benefits, and the financial and physical damages caused to the U.S. Citizens whose social

security number were stolen. The People's of Republic of China are required to provide free education, housing, and welfare for their indigenous their citizens. It is clear in China Constitutions that the government of China is liable for these costs incurred by the Federal, State, and Local Governments forcing their indigenous citizens on the United States indicated by their intentional lax immigration policies.

2. The People's of Republic of China are required to provide the Chinese Citizens due process and rights to counsel inside the United States. The People's of Republic of China are liable for all court costs and attorney costs stolen by their citizens including all detention costs, deportation costs, and costs to file for asylum in U.S. courts.
3. The People's of Republic of China and their citizens inside the United States need to stop participating and interfering in U.S. political events and holding federal, state, or local government positions or office in the United States. No immigrant has the right to be employed in United States federal, state, or local government positions or office.
4. The People's of Republic of China need to assist in stopping illegal entry of their citizens, drugs, weapons, etc. into the United States by establishing the necessary internal and external controls over all individuals, and items entering and leaving their country or territory.
5. The People's of Republic of China need to greatly assist financially and physically to remove all their citizens legal and illegally inside the United States who are using stolen social security numbers and have stolen Federal, State, and Local benefits. This includes assisting to remove their citizens' immigrant children born in China and brought to the United States as children, and their Chinese children born inside the United States who

clearly do not have U.S. Birthright citizenship having Birthright Citizenship from People's of Republic of China.

6. People's of Republic of China need to assist in removing all Chinese Citizens from U.S. research projects due to The People's of Republic of China Constitution "Chapter II The Fundamental Rights and Duties of Citizens Article 50

The People's of Republic of China citizens inside the United States that have and currently participate in:

- the illegal mind control system.
- top U.S. and State governmental positions
- underground operations

are in violation of the Patriot Act and Espionage Act giving great reasons to place sanctions on the Chinese government and discontinue trade with People's of Republic of China.

Continued non-cooperation by People's of Republic of China to immediately begin correcting all problems listed above in items #1 through #6 would give reasons to declare sanctions against People's of Republic of China

The U.S. Congress, U.S. President, and U.S. Judiciary Branch need to be obedient to the following scripture from the Torah and move swiftly to get revenge and retribution from the People's of Republic of China and their citizens living inside the United States or expect to be cursed by the God of Israel once again for 70 years down to 4 generations for not swiftly getting revenge and retribution for the real authentic U.S. Citizens.

DEUTERNOMY 32:28-35

“They are a nation void of sense; there is no understanding in them. If they were wise, they would understand this; they would discern what the end would be. How could one have routed a thousand, and two put a myriad to flight, unless their Rock had sold them, the Lord had given them up? Indeed, their rock is not like our Rock; our enemies are fools. Their vine comes from vine stock of Sodom, from the vineyards of Gomorrah; their grapes are grapes of poison, their clusters are bitter; their wine is the poison of serpents, the cruel venom of asps. Is not this laid up in store with me, sealed up in my treasuries? Vengeance is mine, and recompense, for the time when their foot shall slip; because the day of their calamity is at hand, their doom comes swiftly.”

GUIDANCE FOR THE COURT FROM THE GOD OF TORAH

PSALMS 118:10-26

10 All nations surrounded me; in the name of the Lord I cut them off!

11 They surrounded me, surrounded me on every side; in the name of the Lord I cut them off!

12 They surrounded me like bees, they blazed like a fire of thorns; in the name of the Lord I cut them off!

13 I was pushed hard, so that I was falling, but the Lord helped me.
14 The Lord is my strength and my might; he has become my salvation.
15 There are glad songs of victory in the tents of the righteous; "The right hand of
the Lord does valiantly;
16 the right hand of the Lord is exalted; the right hand of the Lord does valiantly."
17 I shall not die, but I shall live, and recount the deeds of the Lord.
18 The Lord has punished me severely, but he did not give me over to death.
19 Open to me the gates of righteousness, that I may enter through them and give
thanks to the Lord.
20 This is the gate of the Lord; the righteous shall enter through it.
21 I thank you that you have answered me and have become my salvation.
22 The **stone** that the builders rejected has become the chief cornerstone.
23 This is the Lord's doing; it is marvelous in our eyes.
24 This is the day that the Lord has made, let us rejoice and be glad in it.
25 Save us, we beseech you, O Lord! O Lord, we beseech you, give us success!
26 Blessed is the one who comes in the name of the Lord. We bless you from the
house of the Lord.
